LEARNING ABOUT YOUR WINE CHILLER

The Oster™ Wine Chiller with removable cord (FPSTBW8451 & FPSTBW8452-033) will chill wine when the unit is plugged into a power outlet. Once the wine is chilled the adaptor can be removed from the Oster™ Wine Chiller and can then be taken to the table, acting as an ice bucket to maintain the temperature of the wine.

FEATURES OF YOUR WINE CHILLER

It only takes about 8 minutes to perfectly chill a room temperature bottle of white wine (See chart on page 8 for white Zinfandel). No longer will you have to wait hours for the fridge or over 50 minutes for the freezer to chill your wine – perfect for those unexpected visitors.

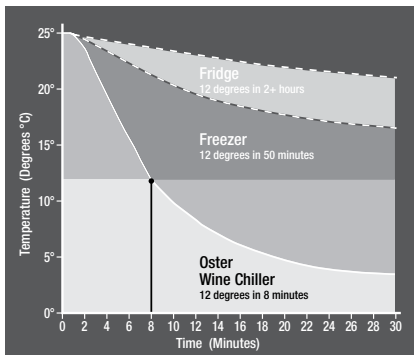

1. 20 minute timer with auto off - Easy to read 20 minute timer with auto off. Allows you to chill beverages to the desired temperature – bottle after bottle.

2. Removable Cord - For added convenience once the beverage is chilled, simply remove the cord and the Oster™ Wine

Chiller can be taken to the table as an ice bucket, maintaining the temperature of the wine.

3. Removable agitating cover - the agitating cover can be removed for cleaning to enable you to retrieve any loose debris that could block the pump.

4. Continuous on - To aid in chilling continuous beverages, simply turn the timer dial to the left and the Oster™ Wine Chiller will continue chilling beverage after beverage.

BEFORE USING YOUR WINE CHILLER

1. Place the Oster™ Wine Chiller on a dry, level surface
2. Ensure the adaptor is attached to the Oster™ Wine Chiller.
3. Plug the AC adaptor into a power outlet.

USING YOUR WINE CHILLER

To enjoy a perfectly chilled wine, follow these 3 simple steps:

Step 1 - Place the bottle to be chilled into the Oster™ Wine Chiller and ideally add two trays (or two hand fulls) of ice cubes. See the 'Recommended Time and Ice Quantities' table on page 8.

Step 2 - Using a jug, carefully pour cold tap water into the Oster™ Wine Chiller. Fill up to the water level indicator line or to the base of the neck of the bottle. Do not fill over the indicator line.

Step 3 - Finally, set the timer to the desired time. See the 'Recommended Time & Ice Quantities' table on page 8.

USING YOUR WINE CHILLER (CONT.)

Note: For optimum chilling, any new bottle chilled, remove the used ice cubes and water, replace with new ice cubes and fresh cold tap water. Alternatively, consecutive bottles can be chilled using the existing water, however this will slightly alter the chilling time.

Note: If the water and ice do not seem to be circulating around the bottle there may be too much ice added. Turn off the unit, remove AC adapter from power outlet and remove some of the ice then turn it back on.

ONCE YOU HAVE FINISHED CHILLING

- When the beverage is chilled to the desired temperature, turn the control knob to “OFF” (0) remove AC adapter from power outlet and remove the adaptor from the Oster™ Wine Chiller.

- Bring the Oster™ Wine Chiller to the table or to wherever desired and use it as an ice bucket to keep the beverage cool once chilled.

- After you have finished using the Oster™ Wine Chiller, empty contents and allow the unit to dry thoroughly.

STOPPING THE OSTER™ WINE CHILLER WHILE IN USE

Should for any reason you need to reduce the time selected on the timer, you can do any of the following:

- slowly turn the timer dial in a counter clockwise direction until the desired time is reached, or
- remove AC adapter from power outlet and remove the adaptor from the Oster™ Wine Chiller.

USING YOUR WINE CHILLER (CONT.)

USING THE CONTINUOUS ON FEATURE

For chilling continuous beverages, simply turn the timer dial to the left. To stop chilling slowly turn the timer dial to the off position.

CARE & CLEANING

When you have finished using your Oster™ Wine Chiller, unplug the AC adaptor from the power outlet and remove from the unit before cleaning.

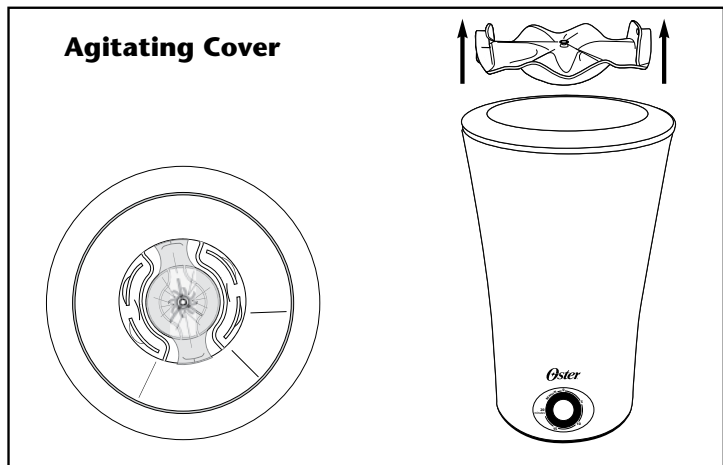

To clean, simply wipe the outside and inside body of the Oster™ Wine Chiller with a damp cloth. Once clean, ensure that the appliance is dried thoroughly.

CAUTION: DO NOT IMMERSE APPLIANCE AND AC ADAPTER INTO LIQUIDS.

CARE & CLEANING (CONT.)

Removing and cleaning the agitating cover

Should a price label or any other packaging label peel off the bottle during chilling you may need to remove the agitating cover to retrieve the loose debris. To remove, simply lift out the black agitating cover, remove debris and wipe clean with a damp cloth. Ensure that once any loose debris has been removed that the agitating cover is replaced.

Note: Always unplug the Oster™ Wine Chiller before cleaning.
