# SAVE THESE INSTRUCTIONS

**THIS APPLIANCE IS FOR HOUSEHOLD USE ONLY.** No user-serviceable parts inside. Do not attempt to service this product. A short power supply cord is provided to reduce the hazards resulting from entanglement or tripping over a longer cord. AN EXTENSION CORD MAY BE USED WITH CARE; HOWEVER, THE MARKED ELECTRICAL RATING SHOULD BE AT LEAST AS GREAT AS THE ELECTRICAL RATING OF THE GRIDDLE. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

**ELECTRIC POWER:** If electric circuit is overloaded with other appliances, griddle may not operate properly. Griddle must be operated on a separate circuit from other operating appliances.

## HOW TO:

### Before first use

**Wash the Removable Griddle Plate in warm soapy water or in the dishwasher and dry completely.**

**CAUTION:** Do not immerse Heating Base in water or other liquids.

- 1 Set the griddle on a flat, dry, heat resistant surface.
- 2 Condition the non-stick cooking surface with vegetable oil, wiping off any excess with a paper towel.

sure that the griddle plate is locked securely into the griddle plate latches located on the base. (See Figure A)

**NOTE:** Position the griddle plate with the taller edge facing forward and the drip hole positioned above the drip tray.

- 5 Make sure Griddle is in the "OFF" position and drip tray is properly inserted. Plug unit into standard 120 V AC outlet.

**NOTE:** The Power Indicator Light will illuminate, indicating that the griddle is plugged in to a power source.

- 6 Preheat the Griddle by aligning the Temperature Control Knob indicator with the appropriate temperature setting for approximately 15 minutes prior to use.

**NOTE:** During cooking, the Power Indicator Light will remain on.

- 7 The Temperature Control also has a "Keep Warm" setting if there is pre-cooked food that you would like to remain warm.

- 8** Do not remove the griddle plate until it has had time to fully cool down.

**NOTE:** It may be necessary to scrape grease into the Drip Tray. Always use wooden or nylon utensils to avoid scratching the Non-Stick Cooking Surface.

**CAUTION:** Grease may be hot!

**NOTE:** When cooking consecutive batches of bacon or other high fat foods, it may be necessary to empty the Drip Tray to avoid grease overflowing onto the countertop.

**NOTE:** Some countertops are more sensitive to heat. Use care not to place the Griddle on surfaces where heat may cause damage.
